**NOTE:** Always turn the console power switch off when inserting or removing an ATARI® Game Program™ cartridge. This will protect the electronic components and prolong the life of your ATARI Video Computer System™ game. Manual, Program, and Audiovisual © 1978, ATARI, INC.

## 1. GAME PLAY

One or two players can become expert gunslingers during these games:

- In one-player games (TARGET SHOOT), you control the movement of a gunfighter with the left Joystick Controller. Practice target shooting with the moving target that appears on the screen.

- In two-player games (GUNSLINGER GAMES), each player controls the movement of a gunslinger with a Joystick Controller. You score points when your gunslinger shoots your opponent's gunslinger.

**NOTE:** In all one and two-player games, bullets will ricochet off the upper and lower playfield boundaries.

## 2. USING THE CONTROLLERS

Use your Joystick Controllers with this ATARI® Game Program™ cartridge. Be sure the Joystick Controller cables are firmly plugged into the **CONTROLLER** jacks at the back of your ATARI Video Computer System™ game. For one-player games, use the Joystick Controller plugged into the **LEFT CONTROLLER** jack. Hold the Joystick with the red button to your upper left, toward the television screen. See Section 3 of your owner's manual for further details.

Use the Joystick Controller to:

- Move your gunslinger on the screen
- Aim and shoot bullets from the gunslinger's gun.

Push the Joystick forward to move the gunslinger up the screen. Pull the Joystick towards you to move the gunslinger down the screen. To move the gunslinger to the left, move the Joystick to the left; move the Joystick to the right to move the gunslinger to the right.

When you want to aim the gunslinger's gun, press the red controller button. Hold the button down while you control the movement of the gunslinger's arm with your Joystick Controller.

- Push the Joystick forward to raise the arm holding the gun
- Pull the Joystick towards you to lower the arm holding the gun.

After you have aimed the gun, release the button to fire bullets.

**NOTE:** The player using the left Joystick Controller controls the gunslinger on the left side of the screen. The player using the right joystick controls the right gunslinger.

### 3. CONSOLE CONTROLS

#### GAME SELECT SWITCH

Use the **game select** switch to select the game number you wish to play. The game number changes at the top, left side of the screen as you press down the switch.

#### GAME RESET SWITCH

When you have selected the game number you wish to play, press down the **game reset** switch to play the game.

#### DIFFICULTY SWITCHES

In the **a** position, your bullets will disappear in flight if your gunslinger is shot before your bullets hit a target. In the **b** position, your bullets will continue in flight even if your gunslinger is hit before your bullet hits a target.

#### TV TYPE SWITCH

Set this switch to **color** if you have a color television set. Set it to **b-w** to play the game in black and white.

### 4. GAME VARIATIONS

There are 16 GUNSLINGER and TARGET SHOOTING games in this Game Program cartridge. Each one presents different variations. For a description of each variation, refer to the following code:

**Blowaway:** Your bullets are more powerful during gunfights with Blowaway. You can shoot away pieces of the protective center object — a Stage Coach, Wall or Cactus — until it completely disappears.

**Cactus:** Some gunfights and target shooting games occur with a Cactus in the center of the playfield. Bullets cannot penetrate the Cactus. Use the Cactus as protection from your opponent's shots.

**Stage Coach:** A Stage Coach stands between the two gunslingers during some games. Bullets cannot pass through the Stage Coach, making it ideal for protection against opposing bullets. In some games, a series of Stage Coaches will move up the screen between you and your opponent.

**Wall:** In some games, a wall is located between the two gunslingers. These games also feature Blowaway. Use your shots to make a hole in the wall and aim at your opponent.

**Getaway:** During a gunfight with Getaway, each gunslinger can move immediately after shooting the gun. Without Getaway, gunslingers must wait until their bullet disappears off the screen or hits a target.

**Six Shooter:** In these gunfights with Six Shooters, each player's gun only has six bullets in it. Receive another round of ammunition when BOTH players have used all six bullets.

**Target Shoot:** The Target Shoot is a feature of one-player games. The Target bounces up and down on the screen while you attempt to make a direct hit.

## GUNSLINGER Two-Player Games

## 5. SCORING

- In one-player games, you score one point each time a bullet from your gunslinger's gun hits the moving target. You have 99 seconds to score a maximum of ten points. The timing clock appears in the upper right corner of the playfield; the gunslinger's score is in the upper left corner.
- In two-player games, you score one point each time a bullet from

your gunslinger's gun hits the opposing gunslinger. When a gunslinger is hit, he will sit down and a point will appear at the top of the screen. The score of the gunslinger on the left side of the playfield appears in the upper left corner; the right gunslinger's score appears in the upper right corner. The first player to score ten points wins the game.
