2. RED BUTTON: Press the Red Button to make your fighter fire an energy blast.

NOTE: The left and right Difficulty Switches are not used for ZAXXON.

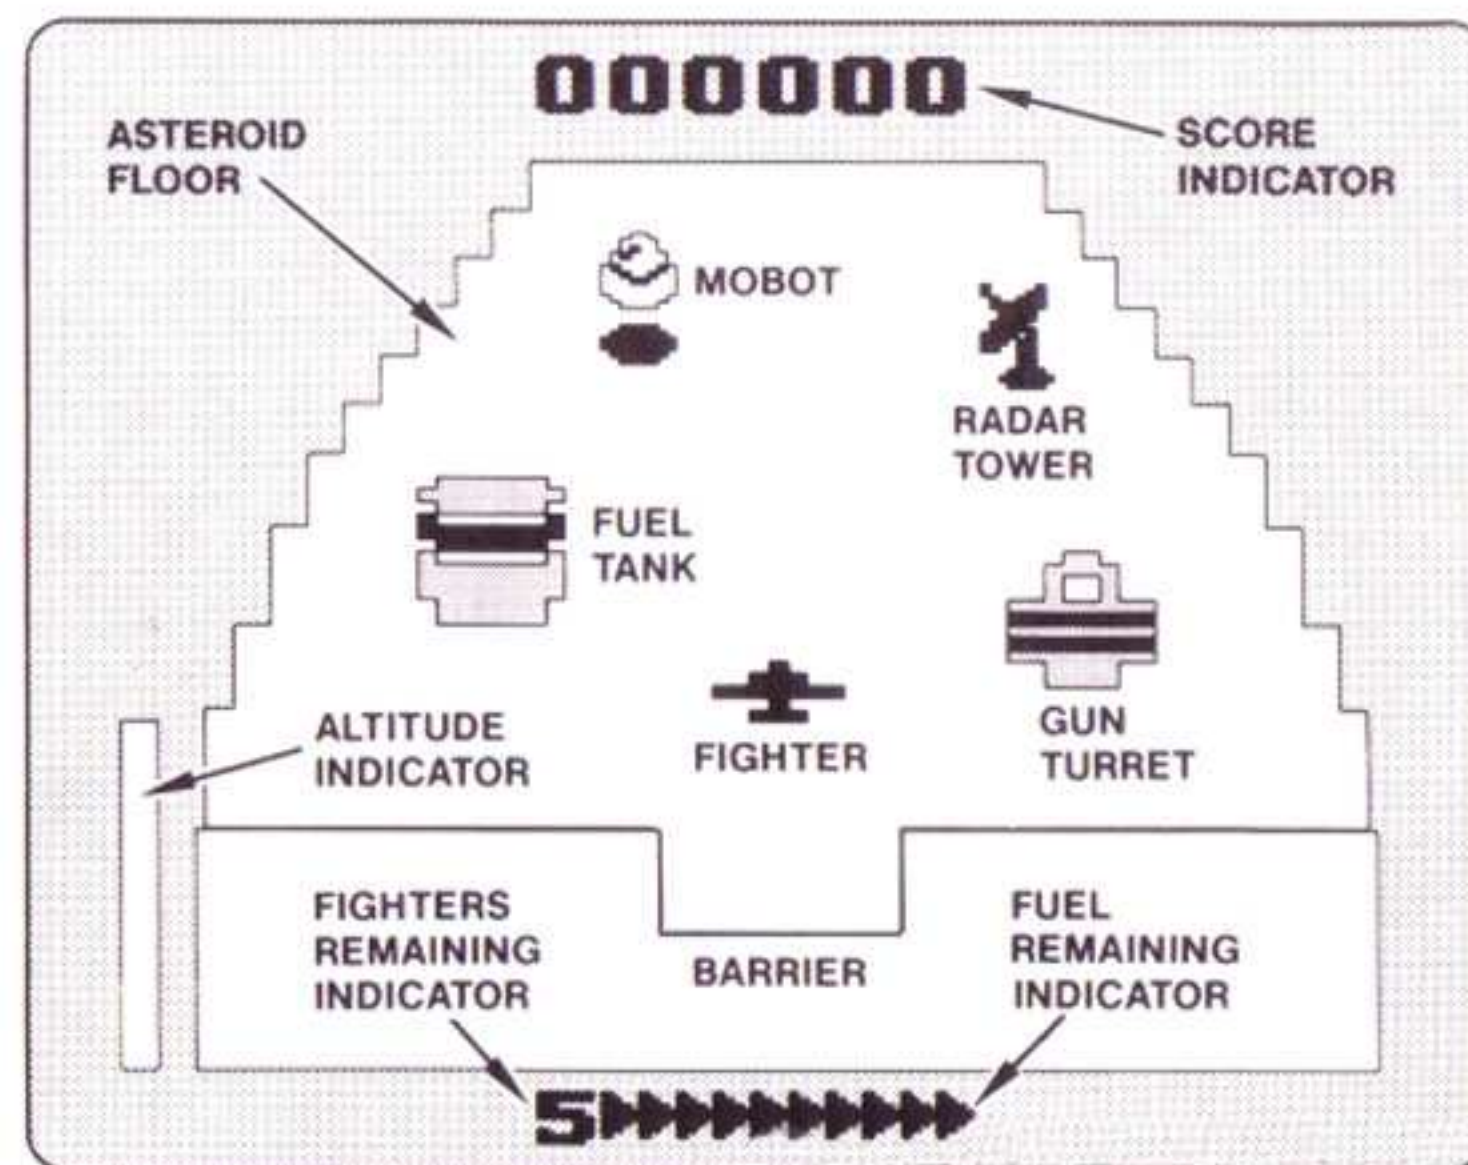

HERE'S HOW TO PLAY

STEP 1: Choose your game.

Press Game Select until the Game Option number you want appears at the top of the screen, according to the following:

1 = Skill 1/One Player	5 = Skill 1/Two Players
2 = Skill 2/One Player	6 = Skill 2/Two Players
3 = Skill 3/One Player	7 = Skill 3/Two Players
4 = Skill 4/One Player	8 = Skill 4/Two Players

Then press Game Reset to begin the first phase.

STEP 2: To battle!

Your fighter approaches Zaxxon's first asteroid base. Fly high to avoid crashing into the first wall! Then swoop down to attack enemy targets. Watch out for return fire from turrets and dodger guns.

STEP 3: Running out of fuel.

Careful! Your fighter guzzles fuel as you zoom over Zaxxon's territory. Keep an eye on your fuel gauge. Fire at fuel tanks to fill up. Then slip over the gap in the wall at the end of the asteroid base and prepare for battle in space.

STEP 4: Attack in space.

You've made it past Zaxxon's first ground force. Now try your skill against Zaxxon's planes in space. They can dive at you from above, below or hit you head on. Eliminate as many planes as you can in this sudden attack.

STEP 5: More asteroid action.

You're heading toward another asteroid. In games played at Skills 2-4, some targets are protected by electronic barriers. Slip through gaps in the barriers to avoid the deadly electronic beams.

STEP 6: Meet the robot Zaxxon.

Pass the final barrier and your fighter no longer moves forward. A deadly force holds it back! But fortunately, you can still move up, down and sideways. Suddenly, the robot Zaxxon approaches. Only one spot on Zaxxon is vulnerable — the missile under its arm. To eliminate Zaxxon, you must shoot its missile repeatedly before it fires. If you fail, you still have a chance to hit the speeding missile and proceed to the next round of play. If you don't eliminate the missile, your fighter will be eliminated.

It takes several hits to eliminate Zaxxon's missile:

Skill Level 1	3 hits
Skill Level 2	4 hits
Skill Level 3	5 hits
Skill Level 4	6 hits

STEP 7: Onward through the galaxy!

Once you've gone past the robot Zaxxon, another asteroid challenges your skill and coordination. Then it's back into deep space to confront another wave of enemy fighters.

STEP 8: Starting over.

Keep defending the universe until you run out of fighters. To replay the Game Option that you have been playing, press Reset. To select another Game Option, press Game Select, then press Reset.
